We may share Personal Data with third parties for various purposes, including Targeted Advertising. We use third parties, such as Google Analytics, Sitecore, and Demandbase to automatically collect browsing, contact, device, personal detail, and social media information using cookies, web beacons and/or pixels on our behalf when you are using our site and other platforms. These services allow us to improve the performance of our website and to personalize the content and advertising that we show to you. In the process of setting cookies and tracking technologies to provide Citrin Cooperman with certain analytics services on our site, some third-party providers may retain such analytics data for their proprietary purposes, including for Targeted Advertising.

- **Google Analytics**

We use the services of Google Analytics, a web analytics service provided by Google, Inc. (“Google”). This analytical tool uses cookies and other similar technologies to help analyze how visitors use the sites. Our site offers the ability to turn off tracking cookies. For more information about the collection and use of data through Google Analytics, please refer to <https://www.google.com/policies/privacy/partners>. Google offers the ability to opt-out of tracking through Google Analytics cookies. For more information, please visit <https://tools.google.com/dlpage/gaoptout>. Google has developed the [Google Analytics Opt-out Browser Add-on](#) to provide website visitors with more choices on how their data is collected by Google Analytics. The add-on communicates with Google Analytics JavaScript (ga.js) to indicate that information about the website visit should not be sent to Google Analytics. The Google Analytics Opt-out Browser Add-on does not prevent information from being sent to the website itself or to other web analytics services. You can also opt out of Google Analytics by [declining cookies for advertising](#).

- **Sitecore**

We use the services of Sitecore, a digital experience platform (DXP) that helps us create and manage digital content and experiences. Sitecore uses cookies and other similar technologies to help analyze how visitors use the sites to create and deliver personalized digital experiences to you. Our site offers the ability to turn off tracking cookies. For more information about the collection and use of data through Sitecore, please refer to [Sitecore Privacy Policy | Sitecore](#). Sitecore offers the ability to opt out of tracking through Sitecore cookies. For more information, please visit [Your privacy choices \(sitecore.com\)](#). Sitecore has a [Privacy rights request form](#) which you may use to facilitate Opt-out requests and provide you with more choices on how your data is collected by Sitecore. You can also opt out of Sitecore collection and processing by declining cookies for [Analytics and Targeted Advertising \(“Do Not Sell” Opt Out\)](#).

- **Demandbase**

We use the services of Demandbase, a go-to-market (GTM) platform that helps us identify and engage prospective clients. Demandbase and their analytics/service providers use tracking pixels, tags, web beacons and cookies to collect information. These technologies are used in analyzing trends, tracking users' online movements, and gathering demographic information about our user base. Our site offers the ability to turn off tracking cookies. For more information about the collection and use of data through Demandbase, please refer to [Demandbase Privacy Notice](#). - **Cookies and Other Tracking Technologies**

Please see our [Cookie and Other Automated Technologies Notice](#) to better understand our use of Cookies and Other Tracking Technologies, including your rights and how you can control your Personal Data collected from Cookies and Other Tracking Technologies. Turning off cookies also does not end collection of data through pixels. Pixels, also known as web beacons or clear GIFs, are small, transparent images that can be embedded in websites and emails. Turning off cookies will prevent websites from setting cookies on your browser. However, it will not prevent pixels from setting cookies on your browser, as pixels are not cookies, but are simply images. If you are concerned about your privacy, you can control which pixels are accepted by your browser by adjusting your privacy settings. Most browsers allow you to block all pixels or to only accept pixels from certain websites. To further understand your Personal Data rights, see the section, "Exercising Your Data Protection Rights," below.
